

COMPETENCES FOR FUTURE LOGISTICS IN V4 COUNTRIES

We are pleased to share the latest updates from the project **Competences for Future Logistics in V4 Countries**, supported by the International Visegrad Fund.

✦ News

The **methodology for the national workshops** has been finalized. It will serve as the framework to ensure comparable results and meaningful exchange of experiences across all partner countries.

On **September 26, 2025**, the Corvinus University of Budapest will present the project during the **Researchers' Night** event, showcasing our work to a broader academic and public audience.

✦ Events

In **October 2025**, the national workshops will take place in each V4 country to explore perspectives, needs, and best practices regarding future logistics competences:

- **Hungary – Budapest, October 1, 2025**
- **Poland – Kielce, October 23, 2025**
- **Czech Republic – Uherské Hradiště, October 9, 2025**
- **Slovakia – Zilina, October 29, 2025**

✦ International Workshop in Budapest

The national workshops will provide the foundation for the upcoming **international workshop in Budapest on November 26, 2025**, which will bring together experts, educators, researchers, and industry representatives from across the V4 region.
