Project consortium meeting

A project consortium meeting was organised on 25 November 2025 at Corvinus University in Budapest. The meeting was devoted to final discussions on the methodology of the international creative workshop and agreement on tasks to be carried out within the project, paying particular attention to dissemination activities.

Makerspace

On 25 November 2025, students had the opportunity to learn about the fundamentals of 3D printing.

International creative workshop

An international creative workshop was organised on 26 November 2025. Students worked together in mixed teams to develop a V4 perspective on logistics competences. The workshop was aimed to:

- enable students to "work with the future" with the use of foresight approach,
- acquire future-oriented competences related to logistics,
- work in an international V4 environment and share opinions, compare attitudes and views with colleagues from other V4 countries.

During the workshop, outstanding experts Balázs Bebesi and Tamás Demus gave inspiring talks which demonstrated the practical side of the project's topic.

Eighteen students participated in the workshop in person and nineteen joined online. The collaboration of future logistics professionals resulted in valuable insights and high-quality output.
